Emory plans new grad student housing

Atlanta Business Chronicle

Emory University has partnered with **Campus Apartments Inc.** of Philadelphia to build a \$27 million graduate student housing complex.

The complex, set for completion at the start of the 2009 academic year, will have 201 units. It will be on Emory land that is on long-term ground lease to Campus Apartments, which will privately finance, develop and operate the project.

"The team at Campus Apartments has been both flexible and creative in both the design of the complex and the structure of the deal," said Mike Mandl, executive vice president for finance and administration at Emory University. "This complex will be a great addition to the Emory community and a very popular housing option for our graduate and professional students."
